Contents of Volume 64

No. 1. JANUARY 1988

BRIEF REVIEW

Effects of water immersion on arginine vasopressin release in humans
P. Norsk and M. Epstein 1

Effect of physical training on the capacity to secrete epinephrine
M. Kjær and H. Galbo 11

Flow limitation and wheezes in a constant flow and volume lung preparation
N. Gavriely and J. B. Grotberg 17

Dependence of transcutaneous O_2 partial pressure on cutaneous blood flow
J. M. Steinacker and W. Spittelmeister 21

Effects of Ca^{2+} withdrawal on diaphragmatic fiber tension generation
N. Viirès, D. Murciano, J.-P. Seta, B. Dureuil, R. Pariente, and M. Aubier 26

Breathing patterns in anesthetized cats and the concept of minimum respiratory effort
S. C. M. Luijendijk and J. Milic-Emili 31

Causes of error of respiratory pressure-volume curves in paralyzed subjects
J. Dall'Ava-Santucci, A. Armaganidis, F. Brunet, J. F. Dhainaut, G. L. Chelucci, J. F. Monsallier, and A. Lockhart 42

Anaerobic capacity determined by maximal accumulated O_2 deficit
J. I. Medbø, A.-C. Mohn, I. Tabata, R. Bahr, O. Vaage, and O. M. Sejersted 50

Effect of changing lung liquid volume on the pulmonary circulation of fetal lambs
A. M. Walker, B. C. Ritchie, T. M. Adamson, and J. E. Maloney 61

A model for hypoxic constriction of the pulmonary circulation
B. E. Marshall and C. Marshall 68

Breathing pattern of anesthetized humans during pancuronium-induced partial paralysis
T. Nishino, N. Yokokawa, K. Hiraga, Y. Honda, and T. Mizuguchi 78

Single breath of CO_2 as a clinical test of the peripheral chemoreflex
P. A. McClean, E. A. Phillipson, D. Martinez, and N. Zamel 84

Inspiratory muscle activity during unloaded and obstructed rebreathing in dogs
E. D'Angelo, N. Garzaniti, and F. Bellemare 90

Pleural liquid pressure measured with rib capsules in anesthetized ponies
L. E. Olson and S. J. Lai-Fook 102

Systemic adenosine deaminase administration does not reduce active hyperemia in running rats
R. E. Klabunde, M. H. Laughlin, and R. B. Armstrong 108

Blood glutathione oxidation during human exercise
K. Gohil, C. Viguie, W. C. Stanley, G. A. Brooks, and L. Packer 115

Clearance of surfactant phosphatidylcholine from adult rabbit lungs
A. Pettenazzo, M. Ikegami, S. Seidner, and A. Jobe 120

Limitations on locomotor performance in squid
R. K. O'Dor 128

Regulation of end-expiratory lung volume during exercise
K. G. Henke, M. Sharratt, D. Pegelow, and J. A. Dempsey 135

Effects of streptozotocin-induced diabetes on lung mechanics and biochemistry in rats
H. Sahebjami and D. Denholm 147

Effect of increased alveolar surface tension on segmental pulmonary vascular resistance
G. F. Nieman, T. S. Hakim, and C. E. Bredenberg 154

Expiratory flow limitation in dogs with regional changes in lung mechanical properties
S. N. Mink, H. Greville, A. Gomez, and J. Eng 162

Effects of metabolic blockade on distribution of blood flow to respiratory muscles
R. L. Johnson, Jr., and M. B. Reid 174

CONTENTS OF VOLUME 64

Hyperoxic exposure affects the ventilatory response to hypoxia in awake rats
R. Arieli, D. Kerem, and Y. Melamed 181

Influence of protein intake and training status on nitrogen balance and lean body mass
M. A. Tarnopolsky, J. D. MacDougall, and S. A. Atkinson 187

Effect of body posture on respiratory impedance
D. Navajas, R. Farre, M. M. Rotger, J. Milic-Emili, and J. Sanchis 194

Muscarinic stimulation of submucosal glands in swine trachea
C. M. Yang, J. M. Farley, and T. M. Dwyer 200

Effects of antihistamines on the cardiopulmonary changes due to canine anaphylaxis
H. J. Silverman, W.R. Taylor, P. L. Smith, A. Kagey-Sobotka, S. Permutt, L. M. Lichtenstein, and E. R. Bleecker 210

Ventilatory and Pa_{CO_2} responses to voluntary and electrically induced leg exercise
A. G. Brice, H. V. Forster, L. G. Pan, A. Funahashi, T. F. Lowry, C. L. Murphy, and M. D. Hoffman 218

Is the hypernea of muscular contractions critically dependent on spinal afferents?
A. G. Brice, H. V. Forster, L. G. Pan, A. Funahashi, M. D. Hoffman, C. L. Murphy, and T. F. Lowry 226

Control of ventilation during exercise in patients with central venous-to-systemic arterial shunts
K. E. Sietsema, D. M. Cooper, J. K. Perloff, J. S. Child, M. H. Rosove, K. Wasserman, and B. J. Whipp 234

Effects of hypobaria on lung fluid balance in awake sheep
K. Hirai, T. Kobayashi, K. Kubo, and T. Shibamoto 243

Exercise effects on chromium excretion of trained and untrained men consuming a constant diet
R. A. Anderson, N. A. Bryden, M. M. Polansky, and P. A. Deuster 249

Effects of metabolic inhibition on ion transport by dog bronchial epithelium
M. J. Stutts, J. T. Gatzy, and R. C. Boucher 253

Exercise training induces glycogen sparing during exercise by old rats
G. D. Cartee, and R. P. Farrar 259

Distributions of vascular volume and compliance in the lung
C. A. Dawson, D. A. Rickaby, J. H. Linehan, and T. A. Bronikowski 266

Distributions of vascular pressure and resistance in the lung
C. A. Dawson, T. A. Bronikowski, J. H. Linehan, and D. A. Rickaby 274

Effect of lung inflation on fluid flux in zone 1 lungs
R. K. Albert, W. J. E. Lamm, and D. L. Luchtel 285

Somatotopy in the segmental innervation of the cat diaphragm
M. Fournier and G. C. Sieck 291

Dihedral angles between alveolar septa
E. H. Oldmixon, J. P. Butler, and F. G. Hoppin, Jr. 299

Permeability characteristics of cultured endothelial cell monolayers
S. M. Albelda, P. M. Sampson, F. R. Haselton, J. M. McNiff, S. N. Mueller, S. K. Williams, A. P. Fishman, and E. M. Levine 308

Cholinergic responsiveness of respiratory and vascular tissues in two different rat strains
M. Badier, M. Soler, M. Mallea, S. Delpierre, and J. Orehek 323

Autoregulation of diaphragmatic blood flow in dogs
S. N. A. Hussain, C. Roussos, and S. Magder 329

Breathing strategy of the adult horse (*Equus caballus*) at rest
A. M. Koterba, P. C. Kosch, J. Beech, and T. Whitlock 337

Response of genioglossus muscle activity to nasal airway occlusion in normal sleeping adults
S. T. Kuna, and J. Smickley 347

Dynamics of breathing in the hypoxic awake lamb
A. Côté, K. Yunis, P. W. Blanchard, J. P. Mortola, and M. A. Bureau 354

Effect of lung volume on interrupter resistance in cats challenged with methacholine
P. D. Sly, K. A. Brown, J. H. T. Bates, P. T. Macklem, J. Milic-Emili, and J. G. Martin 360

Comparison of glottic areas measured by acoustic reflections vs. computerized tomography
A. D. D'Urzo, I. Rubinstein, V. G. Lawson, K. P. Vassal, A. S. Rebuck, A. S. Slutsky, and V. Hoffstein 367

Effects of nasal cold receptors on pattern of breathing
K. R. Burgess and W. A. Whitelaw 371

Nasal delivery of a vasopressin antagonist in dogs
G. G. Liversidge, C. G. Wilson, L. Sternson, and L. B. Kinter 377

Removal of pleural liquid and protein by lymphatics in awake sheep
V. C. Broaddus, J. P. Wiener-Kronish, Y. Berthiaume, and N. C. Staub 384

Validation of maskless CO_2-response test for sleep and infant studies
K. H. Naifeh and J. W. Severinghaus 391

DIDS decreases CSF HCO_3^- and increases breathing in response to CO_2 in awake rabbits
E. E. Nattie and J. M. Adams 397

Exercise stroke volume relative to plasma-volume expansion
M. K. Hopper, A. R. Coggan, and E. F. Coyle 404

Prostaglandins and control of breathing in newborn piglets
W. A. Long 409

Role of barometric pressure in pulmonary fluid balance and oxygen transport
B. D. Levine, K. Kubo, T. Kobayashi, M. Fukushima, T. Shibamoto, and G. Ueda 419

Influence of collateral ventilation on single-breath washout curves
S. Tomioka, S. Kubo, H. J. B. Guy, and G. K. Prisk 429

Effect of hypoxia on responses of respiratory smooth muscle to histamine and LTD_4
N. A. M. Paterson, J. T. Hamilton, A. Yaghi, and D. S. Miller 435

Flow and volume dependence of pulmonary mechanics in anesthetized cats
T. Kochi, S. Okubo, W. A. Zin, and J. Milic-Emili 441

Kinetics of $\dot{V}O_2$ with impulse and step exercise in humans
R. L. Hughson, D. L. Sherrill, and G. D. Swanson 451

Effects of chronic wasting infection on skeletal muscle size and contractile properties
J. S. Drew, G. A. Farkas, R. D. Pearson, and D. F. Rochester 460

RAPID COMMUNICATIONS

Osmotic stimuli induce epithelial-dependent relaxation in the guinea pig trachea
M. Munakata, W. Mitzner, and H. Menkes 466

ABSTRACTS FROM CURRENT LITERATURE 472

No. 2. FEBRUARY 1988

BRIEF REVIEW

Pulmonary microvascular permeability to fluid and macromolecules
R. E. Drake and G. A. Laine 487

Contractile properties of cat skeletal muscle after repetitive stimulation
D. D. Hatcher and A. R. Luff 502

Steady-state response of normal subjects to an inspiratory sinusoidal pressure load
R. Sanii and M. Younes 511

Recovery of the ventilatory response to hypoxia in normal adults
P. A. Easton, L. J. Slykerman, and N. R. Anthonisen 521

CONTENTS OF VOLUME 64

Reliability and validity of bioelectrical impedance in determining body composition
A. S. Jackson, M. L. Pollock, J. E. Graves, and M. T. Mahar 529

Induction of upper airway occlusion in sleeping individuals with subatmospheric nasal pressure
A. R. Schwartz, P. L. Smith, R. A. Wise, A. R. Gold, and S. Permutt 535

Genioglossus and breathing responses to airway occlusion: effect of sleep and route of occlusion
F. G. Issa, P. Edwards, E. Szeto, D. Lauff, and C. Sullivan 543

Effect of ambient temperature on protein breakdown during prolonged exercise
D. G. Dolny and P. W. R. Lemon 550

Plasma adenosine and hypoxemia in patients with sleep apnea
L. J. Findley, M. Boykin, T. Fallon, and L. Belardinelli 556

Effect of increased surface tension and assisted ventilation on ^{99m}Tc-DTPA clearance
A. L. Jefferies, T. Kawano, S. Mori, and R. Burger 562

Exchange of labeled bicarbonate and carbon dioxide with erythrocytes suspended in an elutriator
R. M. Effros, K. Taki, P. Dodek, J. Edwards, A. Husczuk, P. Silverman, and J. Hukkanen 569

Intrapleural liquid flow down a gravity-dependent hydraulic pressure gradient
G. Miserocchi, D. Negrini, M. Pistolesi, C. R. Bellina, M. C. Gilardi, V. Bettinardi, and F. Rossitto 577

Baroreflex function in endurance- and static exercise-trained men
M. L. Smith, H. M. Graitzer, D. L. Hudson, and P. B. Raven 585

Endotoxemia produces an increase in arterial but not venous lipid peroxides in sheep
R. H. Demling, C. Lalonde, P. Ryan, D. Zhu, and Y. Liu 592

Thoracoabdominal restriction in supine men: CT and lung function measurements
L. Tokics, G. Hedenstierna, B. Brismar, Å. Strandberg, and H. Lundquist 599

Prolonged increased responsiveness of canine peripheral airways after exposure to O_3
W. S. Beckett, A. N. Freed, C. Turner, and H. A. Menkes 605

Elasticity of arterioles and venules in postmortem human lungs
R. T. Yen and S. S. Sobin 611

Mechanical coupling of upper and lower canine rib cages and its functional significance
T.-X. Jiang, M. Demedts, and M. Decramer 620

Baroreflex participation in redistribution of cardiac output at onset of exercise
J. R. S. Hales and J. Ludbrook 627

Effect of Na-K adenosinetriphosphatase activity on relaxation of canine tracheal smooth muscle
S. J. Gunst and J. Q. Stropp 635

Gravitational independence of single-breath washout tests in recumbent dogs
S. Tomioka, S. Kubo, H. J. B. Guy, and G. K. Prisk 642

Muscle blood flow is not reduced in humans during moderate exercise and heat stress
G. K. Savard, B. Nielsen, J. Laszczynska, B. E. Larsen, and B. Saltin 649

Transverse abdominis length changes during eupnea, hypercapnia, and airway occlusion
J. S. Arnold, M. A. Haxhiu, N. S. Cherniack, and E. van Lunteren 658

Carotid body excision significantly changes ventilatory control in awake rats
E. B. Olson, Jr., E. H. Vidruk, and J. A. Dempsey 666

Low-frequency diaphragmatic fatigue in spontaneously breathing humans
S. Levine and D. Henson 672

Bolus technique for assessing distribution of inspired gas during tidal breathing
K.-I. Arita, S. M. Lewis, and C. Mittman 681

Subcellular changes in capillary endothelial cells during repair of hyperoxic lung injury
J. P. Mastin, J. D. Shelburne, and L. A. Thet 689

Effect of intravenous catalase on the pulmonary vascular response to endotoxemia in goats
R. J. Maunder, R. K. Winn, J. M. Gleisner, J. Hildebrandt, and J. M. Harlan 697

cAMP, myosin dephosphorylation, and isometric relaxation of airway smooth muscle
P. de Lanerolle 705

Meclofenamate enhances blood oxygenation in acute oleic acid lung injury
L. L. Schulman, P. F. Lennon, S. J. Ratner, and Y. Enson 710

Thermoregulatory model for immersion of humans in cold water
P. Tikuisis, R. R. Gonzalez, and K. B. Pandolf 719

Enhancement of a pulmonary inflammation by PGE_2: evidence for a vasodilator effect
G. P. Downey, R. S. Gumbay, D. E. Doherty, J. F. LaBrecque, J. E. Henson, P. M. Henson, and G. S. Worthen 728

Effects of spinal anesthesia on response to main pulmonary arterial distension
R. G. Pearl, R. F. McLean, and M. H. Rosenthal 742

Reductions in blood pressure after acute exercise by hypertensive rats
J. M. Overton, M. J. Joyner, and C. M. Tipton 748

Effect of β-blockade on the drift in O_2 consumption during prolonged exercise
J. K. Kalis, B. J. Freund, M. J. Joyner, S. M. Jilka, J. Nittolo, and J. H. Wilmore 753

Effects of meclofenamate on breathing movements in fetal sheep before delivery
L. D. Wallen, D. T. Murai, R. I. Clyman, C. H. Lee, F. E. Mauray, and J. A. Kitterman 759

Reflex constriction of human limb resistance vessels to head-down neck flexion
L. K. Essandoh, D. A. Duprez, and J. T. Shepherd 767

Regional ventilation in excised lobes exposed to a transpulmonary pressure gradient
D. O. Warner, R. E. Hyatt, and K. Rehder 771

Maximum O_2 uptake, O_2 debt and deficit, and muscle metabolites in Thoroughbred horses
R. J. Rose, D. R. Hodgson, T. B. Kelso, L. J. McCutcheon, T.-A. Reid, W. M. Bayly, and P. D. Gollnick 781

Upper airway pressure-flow relationships in obstructive sleep apnea
P. L. Smith, R. A. Wise, A. R. Gold, A. R. Schwartz, and S. Permutt 789

Quantitative analysis of hemoglobin oxygenation state of rat brain in situ by near-infrared spectrophotometry
O. Hazeki and M. Tamura 796

Thermoregulatory, cardiovascular, and muscular factors related to exercise after precooling
H. Olschewski and K. Brück 803

Effect of exercise on nonspecific airway reactivity in asthmatics
D. K. Zawadski, K. A. Lenner, and E. R. McFadden, Jr. 812

Effects of almitrine on respiration in unanesthetized newborn rabbits
D. E. Weese-Mayer, L. M. Klemka, R. T. Brouillette, and C. E. Hunt 817

Human respiratory input impedance from 4 to 200 Hz: physiological and modeling considerations
H. L. Dorkin, K. R. Lutchen, and A. C. Jackson 823

Effects of lung congestion and oleic acid injury on the Hering-Breuer reflex
T. C. Lloyd, Jr. 832

Respiratory effects of cigarette smoke, dust, and histamine in newborn rabbits
T. Trippenbach and G. Kelly 837

Rib cage and abdominal expiratory muscle responses to CO_2 and esophageal distension

CONTENTS OF VOLUME 64

Linkage between brain blood flow and respiratory drive during rapid-eye-movement sleep
R. A. Parisi, J. A. Neubauer, M. M. Frank, T. V. Santiago, and N. H. Edelman 1457

Effects of systolic overload and swim training on cardiac mechanics and biochemistry in rats
P. M. Buttrick, A. Malhotra, and J. Scheuer 1466

Muscle mass as a factor limiting physical work
R. J. Shephard, E. Bouhlel, H. Vandewalle, and H. Monod 1472

Muscle glycogen synthesis after exercise: effect of time of carbohydrate ingestion
J. L. Ivy, A. L. Katz, C. L. Cutler, W. M. Sherman, and E. F. Coyle 1480

Linear relationship between $\dot{V}O_{2max}$ and $\dot{V}O_{2max}$ decrement during exposure to acute hypoxia
J. Lawler, S. K. Powers, and D. Thompson 1486

Effects of naloxone on systemic and regional hemodynamic responses to exercise in dogs
N. Imai, C. K. Stone, P. D. Woolf, and C.-S. Liang 1493

Myoelectrical and mechanical changes linked to length specificity during isometric training
C. Thépaut-Mathieu, J. Van Hoecke, and B. Maton 1500

Transient analysis of cardiopulmonary interactions I. Diastolic events
J. Peters, M. K. Kindred, and J. L. Robotham 1506

Transient analysis of cardiopulmonary interactions II. Systolic events
J. Peters, M. K. Kindred, and J. L. Robotham 1518

Measurement of total lung aerosol deposition as an index of lung abnormality
C. S. Kim, G. A. Lewars, and M. A. Sackner 1527

Mechanical properties of porcine intralobar pulmonary arteries
H. Ohtaka, J. C. Hogg, R. H. Moreno, P. D. Paré, and R. R. Schellenberg 1537

Mechanics of the parasternal intercostals during occluded breaths in dogs
A. De Troyer, G. A. Farkas, and V. Ninane 1546

Use of aerosols to estimate mean air-space size in chronic obstructive pulmonary disease
W. D. Bennett and G. C. Smaldone 1554

Noninvasive measurement of regional interstitial lung volume in sheep
A. B. Gorin 1561

Bronchoconstrictor and antibronchoconstrictor properties of inhaled prostacyclin in asthma
C. C. Hardy, P. Bradding, C. Robinson, and S. T. Holgate 1567

Exercise thermoregulation after prolonged wakefulness
M. A. Kolka and L. A. Stephenson 1575

Evaluation of Starling forces in the equine digit
D. Allen, Jr., R. J. Korthuis, and S. Clark 1580

Chronic administration of sodium cyanate decreases O_2 extraction ratio in dogs
A. R. Warley and G. Gutierrez 1584

Gluconeogenic pathway in liver and muscle glycogen synthesis after exercise
J. L. Johnson and G. J. Bagby 1591

Diethyl pyrocarbonate inhibits rostral ventrolateral medullary H^+ sensitivity
E. E. Nattie 1600

Lung volume recruitment during high-frequency oscillation in atelectasis-prone rabbits
L. J. Byford, J. H. Finkler, and A. B. Froese 1607

Bronchoalveolar cell activation after inhalation of a bronchoconstricting agent
J. A. D. Cooper, Jr., W. W. Merrill, J. A. Rankin, Y. Sibille, and M. G. Buck 1615

Cardiac output and O_2 consumption during inspiratory threshold loaded breathing
J. R. Coast, R. A. Jensen, S. S. Cassidy, M. Ramanathan, and R. L. Johnson, Jr. 1624

Alveolar liquid pressures in newborn and adult rabbit lungs
C. D. Fike, S. J. Lai-Fook, and R. D. Bland 1629

Interaction of fatigue and hypercapnia in the canine diaphragm
J. Schnader, S. Howell, R. S. Fitzgerald, and C. Roussos 1636

Effect of simulated altitude erythrocythemia in women on hemoglobin flow rate during exercise
R. J. Robertson, R. Gilcher, K. F. Metz, C. J. Caspersen, T. G. Allison, R. A. Abbott, G. S. Skrinar, J. R. Krause, and P. A. Nixon 1644

Properties of steady maximal expiratory flow within excised canine central airways
J. Solway 1650

Collagen and elastin fibers in human pulmonary alveolar walls
